Global Goals Week will mobilizes communities, demands urgency, and supercharges solutions for the Sustainable Development Goals (SDGs). Our shared future and the achievement of the Global Goals will be determined by our global solidarity – how we work together across borders, nationalities, sectors and generations. This year's Global Goals Week dates are September 20 to 29, 2024.

In 2015, Member States of the United Nations made a universal promise to leave no one behind through the 17 SDGs. One year later, Project Everyone, UNDP and the UN Foundation came together to honor that promise by launching Global Goals Week, an annual week of action, awareness, and accountability for the SDGs.

Now is the time to act. The progress towards achieving the Sustainable Development Goals is significantly behind schedule. The Summit of the Future will create the conditions in which implementation of the 2030 Agenda for Sustainable Development can more readily be achieved. The result will be a world – and an international system – that is better prepared to manage the challenges we face now and in the future, for the sake of all humanity and for future generations.

2023 OVERVIEW

More than 165 supporting partners across sectors
88 virtual, hybrid, and in-person events
3.2 billion potential reach
Over 265K social media engagements
